Arch Cape Sanitary District

Policy 18-01 SD

Building Preventative Maintenance Policy

Purpose

To define clear expectations for the preventative maintenance of district buildings. This policy will include critical areas to be inspected and a schedule of when to conduct these inspections. The district will decide who will conduct these inspections and provide training as necessary.

Schedule

District buildings will be inspected throughout the year that will include daily, monthly quarterly and during inclement weather.

Daily – Daily inspections should be conducted by all employees. These inspections will be done visually. The visual inspections are simply taking notice of something that does not look correct and making sure to report it.

Monthly – Monthly inspections will be conducted by maintenance personnel. This inspection should be comprehensive and documented. The district will provide a checklist of items that should be viewed. Any recommendations will be made to the District Manager.

Quarterly – The safety committee will conduct quarterly inspections of the buildings per OR-OSHA Rule 437-001-0765 (7). Once they have completed their inspections, these should be compared to the monthly inspections. Any recommendations will be made to the District Manager.

Inclement Weather – When the district is aware of a forecasted storm, the maintenance staff will conduct a preventative inspection to make sure the facilities are ready. Once the storm has passed, the maintenance staff will conduct anther inspection to identify any damage or repairs that need to be made. Any recommendations for repairs will be made to the District Manager.

Building Maintenance

The following areas should be looked at during the documented inspections:

Outdoors

- Roof
- Gutters/Scuppers
- Downspouts direct water away from the building
- Doors/Seals/Caulking
- Exterior Wall conditions/Holes/Paint/Siding
- Exterior Lighting/Cameras
- Parking Lots/Light Poles
- Emergency Backup Generators
- Vegetation trimmed away from buildings

- Foundation
- Combustibles away from buildings
- Exposed Piping

Indoors

- Emergency Lighting
- HVAC System/Filters/Batteries in Thermostats
- Water Intrusion/Moisture Issues
- Storage Areas
- Interior Wall Conditions
- Electrical Panels
- Attics

Training

The district will conduct annual training for staff that includes refreshing staff of items to be viewed or any new buildings or conditions they should be aware of. Refresher training should occur if a property claim is filed.

Property Maintenance Checklist

Date of Inspection:	Inspected by:				
General:	Ol	(FI	X N	/A	Comments
Emergency Procedures available					
SDS binders are up to date and available					
Map for emergency shut off locations for water, gas,					
etc. is posted
